

Dr. Catalin NAE

President & CEO, National Institute for Aerospace Research "Elie Carafoli" – INCAS Bucharest

„Being representative of research community, I would like to see that research has successfully delivered, I would like to see our research achievements included in the big demonstrators and programmes from main stakeholders in the aviation industry.

From another perspective, I would like to see a broader participation of the aeronautical research community from east European countries, initially linked to the first phase AEROdays 2019 in Bucharest, in this international high level event hosted in Berlin, Germany. “

Dr. Catalin Nae is the General Manager & CEO of INCAS - Bucharest, the leading research establishment in aerospace sciences in Romania, starting October 2007. Catalin NAE graduated and obtained his PhD in 1997 from Politehnica University in Bucharest, the Faculty of Aerospace Engineering.

He also obtained a post doc diploma at University of Glasgow, Aerospace Engineering Department.

Dr. Catalin NAE is Vice - Chairman of the Association of European Research Establishments in Aeronautics (EREA) for 2020 - 2020, Coordinator of Future Sky Programme, represents Romania in ACARE Member States Group (since 2006), is member of the IFAR Board of Directors (2010), President of STAI – Supersonic Wind tunnel Association, International, JTI Clean Sky - Steering Committee member, since 2008 (FP7 JU).

INCAS - National Institute for Aerospace Research "Elie Carafoli" is the leading research establishment in aerospace sciences in Romania, with more than 70 years tradition in aerospace engineering, flow physics and applied aerodynamics, using state-of-the-art technologies and unique infrastructure of national strategic importance. Member of EREA, Association of European Research Establishments in Aeronautics, ESRE, Association of European Space Research Establishments, IFAR – International Forum for Aviation Research
