

Michael Holzbauer

Director European Affairs ATM
Frequentis AG

Michael Holzbauer is a senior manager at Frequentis and responsible Director for European Affairs in ATM. He leads several strategic air traffic management programs at Frequentis such as the Single European Sky Air Traffic Management Research programme (SESAR). In addition, he is Council member of Eurocae - the European Organisation for Civil Aviation Equipment.

Michael Holzbauer joined Frequentis in 2006 and has worked since then in several management positions including heading the product management for Air Traffic Management Tower Solutions.

Prior to joining Frequentis, he gained experience through more than 15 years in various leading Product- and Development positions in the Telecom and ATM Industry working in multi-cultural and multi-lingual organizations, reaching out to markets around the world.

“Automation and virtualisation technologies are key elements for digitalising the aviation system in Europe. The #AeroDays2020 is a great event for reaching out to industry and governmental stakeholders for presenting these concepts and discussing which benefits they will bring.”
