

Reiner Winkler has held the position of Chief Executive Officer at MTU Aero Engines AG since January 2014. His responsibilities include human resources, corporate strategy, corporate communications, and legal affairs. From May 2005 to December 2017, Winkler was Chief Financial Officer at MTU, serving as CFO and CEO in a dual capacity during the last four years of this period. A graduate in business administration, Winkler joined MTU in 2001 to become vice president, finance, human resources and information technology.

Prior to that, Winkler was managing director, finance/controlling at TEMIC Telefunken microelectronic GmbH. Previously, he also held senior management posts with Daimler-Benz AG and Siemens AG.

“Air transport connects the world and brings people and goods together. Despite short-term crises, the aviation industry shows long-term growth. We must now address the challenges and opportunities for revolutionary technological developments and set the course for the future of aviation.”
