

“Los Angeles World Airports has a bold vision for the future, ensuring that its airports remain the gold standard in environmental conservation and sustainability. LAWA is proactively investing in sustainable infrastructure and implementing policies, which protect our environment and our community while encouraging innovation. The recently adopted Sustainability Action Plan will shape our environmental footprint to reach carbon neutrality by 2045, eliminating food waste by 2028, and reaching 100% renewable energy by 2045. We are committed to working with our airline partners, external partners and the community to reach our goals.”

Samantha Bricker

Chief Environmental and Sustainability Officer

Samantha Bricker was named the Chief Environmental and Sustainability Officer for Los Angeles World Airports (LAWA) in August 2019. She is responsible for overseeing all environmental and sustainability programs for LAWA including air quality and conservation initiatives, noise programs, environmental planning, regulatory compliance as well as transportation and mobility strategy. Ms. Bricker also oversees the third party coordination with external agencies and stakeholders in support of LAWA’s Landside Access Modernization Program (LAMP) and Capital Improvement Program. Ms. Bricker joined LAWA in July 2016 as Deputy Executive Director for Project Management and Coordination and in November 2016 was named Deputy Executive Director for the Environmental Programs Group. Prior to joining LAWA, she was the Chief Operating Officer of the Exposition Metro Line Construction Authority.

In that role, she coordinated the design and construction of Metro’s Expo rail line, where she managed a budget of \$2.5 billion and directed the Authority’s environmental planning, third party and external agency coordination, procurement, contract compliance, real estate program, as well as community and government relations.

Before her position with the Expo Construction Authority, Bricker served as a senior legislative deputy to former Los Angeles County Supervisor Zev Yaroslavsky from 1994 to 2006. In this role, she developed policy and worked on environmental and transportation projects including the Orange Line busway in the San Fernando Valley and the Red Line subway to Hollywood and North Hollywood.

Bricker earned a Master of Arts in Political Science from UCLA and a Bachelor of Arts in Political Science from Northwestern University.
