

“The aerospace and defense industry is releasing the next generation of breakthrough innovations. Utilization of technologies such as artificial intelligence, machine learning, or robotic process automation will cross boundaries from products into value chain processes. We believe data will be the critical bridge between both worlds and will generate new business models.”

TORSTEN WELTE

Global Vice President
Head of Aerospace & Defense and
Travel & Transportation
SAP Industry Business Solutions

Contact   

Torsten Welte joined SAP Americas in 2004 and assumed the role of Global Head of Aerospace & Defense (A&D) Industries in 2015 and Travel & Transportation in 2019. With over 25 years of experience in consulting, sales, IT and program management, Torsten brings a depth and breadth of experience to the key leadership roles that he has held in the North American Aerospace & Defense segment.

Under Torsten’s leadership, the A&D and T&T Industry Team’s mission is to deliver industry cloud solutions that help SAP customers sustainably innovate and grow their businesses, operate safely and develop their people.

Prior to joining SAP, Torsten spent 12 years with Deloitte Consulting, managing several large SAP implementations as well as strategy engagements across different manufacturing industries.

Torsten graduated from the University of Applied Science in Pforzheim, Germany, focusing his academic studies on the areas International Business, Organizational Design and Information Technology. He resides in Seattle, WA USA.

About SAP

As the cloud company powered by SAP HANA, SAP is the market leader in enterprise application software, helping companies of all sizes and in all industries run at their best: 77% of the world’s transaction revenue touches an SAP system. Our machine learning, Internet of Things (IoT), and advanced analytics technologies help turn customers’ businesses into intelligent enterprises. SAP helps give people and organizations deep business insight and fosters collaboration that helps them stay ahead of their competition. We simplify technology for companies so they can consume our software the way they want – without disruption. Our end-to-end suite of applications and services enables more than 440,000 business and public customers to operate profitably, adapt continuously, and make a difference. With a global network of customers, partners, employees, and thought leaders, SAP helps the world run better and improve people’s lives. For more information, visit www.sap.com.
