

Florian Reuter

Chief Executive Officer, VOLOCOPTER

As the CEO of Volocopter GmbH, Florian is responsible for turning the Company's vision of urban air mobility for all into a reality. Having joined Volocopter in 2015, with a team of four, Florian has overseen its growth to a team of some 200, set the market, product and certification strategy from scratch and attracted EUR 100+ Million investment from companies such as Daimler, Geely and Japan Airlines. Having gained the world's first permit to fly in 2016, Volocopter is the undisputed global leader in electric urban air taxis.

Prior to joining Volocopter, Florian spent several years as a Management Consultant on international assignments and worked as a Venture Manager in Central Research with Siemens AG in Munich. There he was responsible for the commercialization of High-Tech innovations within global markets.

Florian holds a Master's Degree in Industrial Engineering (Diplom Wirtschaftsingenieur) from the Karlsruhe Institute of Technology (KIT) and wrote his Thesis with DaimlerChrysler in Tokyo, Japan.
